

System Requirements

Paperless Pipeline officially supports the latest versions of the following browsers:

- Google Chrome
- Mozilla Firefox
- Safari
- Microsoft Edge

While Pipeline may function on other modern browsers, using one of the browsers listed above guarantees reliable support, optimal performance, and complete access to all features.

Supported Mobile Browsers

Paperless Pipeline is accessible via most modern mobile browsers, including:

- Google Chrome (Android)
- Safari (iOS)

For the best experience on mobile devices, always use the latest version of your mobile browser.

Optimizing Your Experience

Why We Recommend Keeping Your Browser Up-to-Date

To ensure optimal performance and access to all features, we strongly recommend keeping your browser updated. As we continually improve Paperless Pipeline, older versions of browsers may lose compatibility. We periodically discontinue support for outdated browsers to maintain the highest security and functionality standards.

How to Update Your Desktop Browser

- **Update Chrome:** Chrome updates automatically by default. To check manually, go to: Chrome menu > Settings > About Chrome.
- **Update Firefox:** Firefox updates automatically. To check manually, go to: Menu > Help > About Firefox.
- **Update Safari:** Safari is updated through macOS system updates. To update: System Settings > General > Software Update.
- **Update Edge:** Edge updates automatically. To check manually, go to: Menu > Help and feedback > About Microsoft Edge.

How to Update Your Mobile Browser

- **Update Safari (iOS):** Safari is built into iOS. To update Safari, update iOS: Settings > General > Software Update.
- **Update Other Browsers (iOS):** Browsers like Chrome or Firefox must be updated through the App Store: App Store > Your Profile > Available Updates.
- **Update Chrome or Other Browsers (Android):** Most Android browsers update via Google Play: Play Store > Menu > Manage apps & device > Updates available.
