Current Usage FAQ

Last Modified on 09/04/2026 11:04 am EDT

The panel shows your quota, transactions remaining, reset date, next bill date, and plan cost in one place. Answers to the common questions about checking your usage.

Where do I check how many transactions I've used?

Under Current Usage in Admin / Settings. Click the Gear in the upper-right corner, choose Admin / Settings, and scroll to Current Usage in the left menu.

How many transactions do I have left this cycle?

The panel shows it directly. Current Usage lists your quota alongside what you've used, so your remaining transactions are right there.

When does my usage reset?

At the start of your next billing cycle. The reset date is shown in the Current Usage panel, and open transactions from earlier months don't count against the new quota.

Can agents see the Current Usage panel?

No — it's a master admin view. Usage and billing details live in Admin / Settings, which only master admins can reach.

Learn More

The Current Usage panel is your at-a-glance meter — transactions used, transactions left, and when the quota resets.
