Pipeline on Mobile

Last Modified on 11/10/2026 12:22 pm EST

Open Pipeline in your phone's browser, and add an icon to your home screen to get back in with one tap.

Introduction

Pipeline runs in the browser on your phone or tablet. It's the same Pipeline you use on a computer, and you sign in with the same email address and password. There's no separate app to download from the App Store or Google Play.

The pages adjust to the size of the screen, so the transactions, documents and checklist tasks you work with on a computer are on your phone too. When something comes up away from your computer, like a document to upload or a task to check off, you can handle it from your phone.

How It Works

It Runs in Your Browser

Open your mobile browser, go to app.paperlesspipeline.com, and sign in.

Add It to Your Home Screen

Both iPhone/iPad (Safari) and Android (Chrome) let you save a Pipeline icon to your home screen for one-tap access.

Add Pipeline to an iPhone or iPad Home Screen

Save a Pipeline icon from Safari on iOS.

Who Can Do This: Anyone — on iOS, only Safari can add a home-screen icon.

To add Pipeline to an iPhone or iPad home screen:

1. Open **Safari** and go to app.paperlesspipeline.com.
2. Tap the **Share** button (the square with an upward arrow).
3. Tap [Add to Home Screen].
4. Name the icon, then tap [Add].

The Pipeline icon lands on your home screen — tap it any time to open Pipeline in Safari.

Add Pipeline to an Android Home Screen

Save a Pipeline icon from Chrome on Android.

Who Can Do This: Anyone with Chrome for Android.

To add Pipeline to an Android home screen:

1. Open **Chrome** and go to app.paperlesspipeline.com.
2. Tap the **menu** button, then [Add to Home screen].
3. Name the icon, then confirm.

The icon appears on your home screen like any other app shortcut.

Frequently Asked Questions

Is there a Paperless Pipeline app to download?

No separate app — Pipeline runs in your mobile browser. Add a home-screen icon and it opens with one tap, just like an app.

Which browser should I use on my phone?

Safari on iPhone or iPad, Chrome on Android. On iOS, only Safari can save the home-screen icon.

Do I sign in differently on mobile?

No. Go to app.paperlesspipeline.com and sign in with the same email address and password you use on a computer.
